HAPPY NEW YEAR to all of you. Be sure to include bicycling more miles in 2010 among your New Year's resolutions. Here are some bicycling resolutions for your consideration:

1. Ride your bike more often in 2010. Check the GVCC calendar for rides.
2. Bike to work. (Start with once a week.)
3. Set a realistic bicycle mileage goal for 2009 and keep a log of your miles.
4. Volunteer to lead a GVCC ride. (You pick the route, time, and place, etc.)
5. Attend GVCC meetings and get involved in club business and activities.

NEWCOMERS RIDE: Saturday, January 2, 930am, Java Station, Doris, 968-3143. Everyone is welcome to join this leisurely paced ride around Goleta. No one is ever left behind. You must wear a helmet to ride with the Goleta Valley Cycling Club.

HOLIDAY PARTY and GVCC MEETING: Mark your calendars for **Saturday, January 9**, for our annual celebration of the holidays (after the fact). Robert and Brigitta once again will be our hosts, but this year we will meet in their new home, **357 Arroyo Road. Please RSVP** to me at cyclebug@aol.com or 968-3143. Our annual event is a potluck dinner; please bring something to share. Be prepared to discuss PPR 2010.

2009 MILEAGE REPORT: Owen and I are still pedaling toward our mileage goals for 2009. On Christmas Day, I met my goal of 8000 miles for 2009 and I still had six more riding days. Owen's

broken kneecap set him back at the beginning of the year and caused him to reduce his mileage goal. He was finally able to start riding regularly in May. I'll report on our final mileage totals in the February Breeze.

From Los Angeles Times, November 2, 2009 by Christie Aschwanden.

RIDERS STAY ON THE DEFENSIVE:

National Highway Traffic Safety Administration statistics show that the following were five of the most frequently reported fatal bike-vehicle accidents from 2004 through 2008. Here our urban cycling experts outline the best ways to avoid them—and offer some other safety tips besides.

Oblivious at the wheel

Situation: At a traffic light or stop sign, the driver obeys the traffic signal but fails to yield to you, the bicyclist.

Strategy: Don't assume the driver will yield, even if you have the right of way. If it's your turn to proceed at the stop sign, try to make eye contact with the motorist before you move into the intersection. If in doubt, proceed as if you haven't been seen.

The left cross

Situation: A motorist traveling in the opposite direction turns left directly into your path.

Strategy: Slow down as you approach an intersection, and try to make eye contact with drivers who might turn into your path. Try to anticipate their actions and be ready to take evasive maneuvers. If the car turns into your path, turn with them, in the same direction. [To be continued in February.]
